**DETAILED ACTION**

1. Claims 1-14 are pending in this application.

***Election/Restrictions***

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-14 (in part), drawn to monocyclic 1,3-thiazine compounds, process of making and method of use.

Group II, claim(s) 1-14 (in part), drawn to others e.g. polycyclic 1,3-thiazine compounds in which two substituents from the groups consisting of R<sup>2</sup> to R<sup>7</sup> with the C atoms forms a carbocyclic ring.

The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of Group I is a monocyclic 1,3-thiazine compounds, process of making and method of use and is different from the special technical feature of Group II. The special technical feature of Group II is a polycyclic-1,3-thiazine compounds and this special feature is not present in Group I.

A telephone call was made to Nicanor Kohncke on 03/13/2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

It is recommended that applicants delete "use of" claims 7-8 and 13 and also delete claim 12. Applicants have also to delete a "method for preventing" from claim 14.
